

King Arthur Baking Bioengineered Statement

January 01, 2025

To whom it may concern,

King Arthur flour is milled from wheat sourced exclusively from the USA; GMO wheat is not approved for commercial production or sale in the United States and North America. As a result, all King Arthur flours are not bioengineered/genetically modified and do not require a Bioengineered Food Disclosure in accordance with The National Bioengineered Food Disclosure Law.

Thank you,

Kate Farley
Senior Quality Assurance & Regulatory Affairs Manager
King Arthur Baking Company
